

EMERGENCY FUNDRAISING FOR SMALL TRACTOR SUPPORT

It has been a year since the Myanmar military coup broke out, but the military Junta is becoming more cruel day by day.

Myanmar people are suffering from severe food shortages as the military monopolizes food and daily necessities.

As a result, people participating in the civil disobedience movement are trying to prepare small pieces of farmland to produce their own food, and if they receive a small tractor, they can produce food that can be provided to about 150 families a month.

Please participate in prayer and fundraising for small tractors (\$12,500 per unit)

so that Myanmar people who have taken a stand for democracy can secure a basic supply of food for the protection of life.
